Staff at the School Safety Advocacy Council have over 75 years of direct school safety experience. Our goal remains simple. "To Identify and Eliminate Security Concerns.", thus resulting in reduced liability to both your individual school and community/district.

Security in any school should be commensurate with its risks. However, the process to determine which security controls are appropriate and cost effective, is quite often a complex and sometimes a subjective matter. One of the prime functions of school security assessment is to put this process onto a more objective basis.

It has often been said, that unless students feel safe they cannot learn to their maximum ability. With the emphases today on test scores, there remains a need make certain that schools do all they can to maximize safety and security for students and staff.

Our recommendations will include ways to develop a security program using best practices, effective security awareness training, and metrics necessary for self-assessment and greater return on security investments. With proven leadership and a history of success in school safety, we will provide professional and innovative approaches to reduce security costs and create security plans that maximize your ability to keep students safe.

Our instructional staff have a combined 125 years of school safety related training, to both school districts and law enforcement agencies.

For additional information on obtaining a no cost proposal for school safety assessments, training or a combination of both, please contact our office at;

941-232-4633 (Florida Office) or  
978-479--8963 (Mass Office)  
or RESOURCER@AOL.COM

#### **LISTEN TO WHAT THEY SAY....**

"The training offered by the School Safety Advocacy Council was truly second to none."

William J. Hill, Police Chief (Illinois)

"Our district was in need of a quality assessment and the staff of the Advocacy Council provided us with suggestions that will keep our schools safe for years to come."

Ryan Shell, District Safety Coordinator

"The training that your organization provided this past summer absolutely saved lives in our recent school shooting."  
Deputy Wood, Park County Sheriff's Ofc.
